## **We Look Forward to Seeing You In Baltimore!**

RideScout™ is a transportation technology company that provides an A-B multimodal trip planning in a free mobile app. It was created for the individual user and our ride provider partners, but equally important if not more so, we want to help cities, corporations, universities and employers. Building on the functionality and capability of our existing app, RideScout™ Enterprise Solutions products and offerings focuses on moving, managing, and motivating users across all modes of ground transportation.

To learn more please join us at the following presentation or visit our website at [www.ridescout.com](http://www.ridescout.com).

Monday July 27th: 1:45 PM - 2:45 PM

Apps for Gaps: Digital Solutions for the First/Last Mile Challenge.
